Objectives (PNIOs)

(USIB-D-25.1/6, 13 June;

USIB-D-25.1/7, 8 July;

USIB-M-276, item 10. b. (2) (d))

The Chairman referred to recent discussions he had had with the Director of the Bureau of the Budget during which two related questions were raised: first, whether the intelligence community should establish its own objectives and priorities, or whether the intelligence users should so task the community; second, whether USIB has management authority over intelligence activities or left these matters largely up to individual components of the community.

The Director of Central Intelligence explained the authority which he has in such matters as contained in a memorandum to the DCI from the President dated 16 January 1962.

The Board then turned to a discussion of changes proposed by the DIA member in Appendix A to USIB-D-25.1/6, with particular reference to a proposal that primary emphasis be given to those objectives relating to an immediate military threat to U.S. security, e.g., Objectives 1 and 2.

After further discussion, the USIB took the following actions:

- a. Noted the Chairman's statement that USIB should consider and discuss, at an early date, whether it should

exercise more specific management responsibility with respect to the programs and activities falling within the purview of the intelligence community.

b. Deferred action on USIB-D-25.1/6 to permit further study by Board members in the light of the discussion, especially as to the changes proposed by the DIA member.

c. Directed the PNIO Review Committee to report to USIB within a couple of weeks regarding the present practices of USIB committees relative to the implementation of the PNIOs, and to clarify the intent and purpose of its last recommendation in USIB-D-25.1/6.
